FINANCIAL AID

Process
1. Request a FSA ID at https://fsaid.ed.gov/
2. Complete the FAFSA at https://fsaid.ed.gov/
   The Institute of Beauty and Wellness and Aveda Institute Madison's school code is 038083. Students are encouraged to fill out a FAFSA with the Financial Aid Administrator.
3. Several days after your FAFSA has been submitted, you will be notified of your eligibility by the school's Financial Aid Administrator.

Some FAFSAs are selected for a review process called verification, where a student may have to submit financial documentation to the Financial Aid Administrator.

Eligibility
Eligibility is determined using a formula established by the U.S. Department of Education to evaluate the information reported on the FAFSA. The formula produces an Expected Family Contribution (EFC) that is used to determine what Federal Financial Aid a Student may be eligible for.

Federal Pell Grant
A Federal Pell Grant, unlike a loan, does not have to be repaid, providing the program is completed. Pell Grants are awarded only to undergraduate students who have not earned a bachelor's or professional degree.

Direct Subsidized Loan
This loan is awarded based on the financial need as determined by the school's cost of attendance minus the student’s Expected Family Contribution (EFC) as well as scholarship and grant awards. The federal government pays interest on the loan (“subsidizes” the loan) until a student begins repayment and during authorized periods of deferment. Students will receive a six-month grace period after the student is no longer enrolled to begin repayment of their loan.

Direct Unsubsidized Loan
This loan is not awarded on the basis of need. A student will be charged interest from the time the loan is first disbursed until it is paid in full. A student will receive a six-month grace period after the student is no longer enrolled to begin repayment of their loan. However, a student may pay the interest charges on a quarterly basis during their enrollment or grace period.

Federal PLUS Loan
This program enables parents with good credit histories to borrow to pay the education expenses of each child who is a dependent undergraduate student. The yearly limit on the PLUS Loan is equal to the cost of attendance minus any other financial aid received. Repayment of this loan begins within 60 days after the loan is fully disbursed. A parent may request an in-school deferment to delay payment while their child is in school and a 6-month grace period after the student is no longer enrolled.

Satisfactory progress in academic work and attendance is a requirement for all students during all terms for which they are enrolled at either The Institute of Beauty and Wellness or Aveda Institute Madison, including summer, whether or not, the student receives Title IV Funds (Federal Financial Aid) during those terms.

This policy is intended to comply with all applicable rules and regulations established by the National Accrediting Commission of Career Arts and Sciences (NACCAS) and the United States Department of Education.

The school’s satisfactory academic progress policy is provided to applicants prior to enrollment in the course catalog as well as in the enrollment contract.

Academic

Students must meet a minimum of 80% in their academic grades.

When enrolling in our programs, a student accepts the responsibility to perform at the prescribed standards and achieve results in order to graduate. The objective is to recognize, in an equitable and uniform manner, the performance of individual students. Attendance, level of cooperation, attitude and professionalism, as well as completing the necessary homework, projects and tests, is an absolute necessity.

Academic progress is measured by the following:

<table>
<thead>
<tr>
<th>Academic Component</th>

<tbody>
<tr>
<td>Chapter Tests</td>
<td>25%</td>
</tr>
<tr>
<td>Student Projects</td>

<td>25%</td>
</tr>
<tr>
<td>Technical Evaluations</td>
<td>25%</td>
</tr>
<tr>

</tbody>
</table>

If a student is not in attendance or misses an examination not including the mock written or practical, the student will be required to take the exam upon the first day returning back to school at the beginning of class.

Students must maintain a minimum of 90% attendance record.

The maximum time a student has to complete is 111% of the course length.

- 96-100 Honor Roll
- 90-95 Very Good
- 85-89 Good

- 79-Below Unsatisfactory
Determination of Progress
To determine Satisfactory Progress, all Cosmetology students are evaluated at 450, 900, 1250, and 1600 completed (actual) hours. Esthiology students are evaluated at 300 and 600 completed (actual) hours. Massage Therapy students are evaluated at 375 and 750 completed (actual) hours. Manicuring students are evaluated at 150 and 300 completed (actual) hours. Ayurveda Esthetic students are evaluated at 450, 900, and 1000 completed (actual) hours. Barbering students are evaluated at 450, 900 and 1000 completed (actual) hours. Yoga Teacher Certification students are evaluated at 100 and 200 completed (actual) hours. Students who do not achieve Satisfactory Progress may no longer be eligible for Title IV, HEA program funds, if applicable, unless the student is on warning or has prevailed upon appeal of the determination that has resulted in the status of probation. Students meeting the minimum requirements for academics and attendance at the evaluation point are considered to be making satisfactory academic progress until the next scheduled evaluation. Students have access to a hard-copy of their Satisfactory Progress Determination at the time of each of the evaluations.

Progress Evaluation
The school periodically monitors student progress with our Satisfactory Academic Progress Policy.

Warning and Probation Status
Students who do not achieve satisfactory academic progress are placed on warning status until the next scheduled evaluation and must meet with their Department’s Team Leader and/or the Administrative Director of the school. At this meeting, the student and Administrative Team will devise a study plan, set academic goals, discuss extra credit, and decide on any other course of action that needs to be taken. The student is still eligible for Title IV Aid while on warning. The school’s financial aid administrator will notify a student on warning how their status impacts their eligibility for Federal Financial Aid. If at the end of the warning, the student has achieved the school’s academic work and attendance requirements, then the student has re-established that he/she meets the school’s satisfactory academic progress and is taken off warning. If at the end of the warning, the student has not demonstrated satisfactory academic progress, then the school may allow for the status of probation for a student if: the student prevails upon appeal of a negative progress determination prior to being placed on probation; and the school determines that satisfactory academic progress can be met by the end of the subsequent evaluation period; or the school develops an academic plan for the student that, if followed, will ensure that the student is able to meet the school’s satisfactory academic progress requirements by a specific point within the maximum time frame established for the individual student. If at the end of the probation, the student has achieved the school’s academic work and attendance requirements, then the student has re-established that he/she meets the school’s satisfactory academic progress and is taken off probation. If at the end of the probation, the student has not demonstrated satisfactory academic progress, then the student may be terminated from the school at the discretion of the Administrative Team. Future enrollment consideration will be individually reviewed.

Appeal of Warning and Probation
Students may appeal a failed satisfactory academic progress determination by filing a written appeal to the Administrative Director. Students must provide documentation regarding why he/she failed to make satisfactory academic progress. Valid reasons for submitting an appeal include, but are not limited to: illness or injuries, children’s illness or injuries, death of a relative or friend, family emergencies, pregnancies, maternity/paternity leave, disabilities, or legal matters. Students must also explain what has changed in his/her situation that will allow the achievement of satisfactory academic progress at the next evaluation. The appeal of a failed satisfactory academic progress determination is reviewed by the Administrative Director. If the appeal is approved, the student will have prevailed upon appeal resulting in a status of probation. The results of the appeal are documented in the student’s file.
Withdrawals – Passing/Failing
If a student withdraws from a course and was passing, it would be included in their academic grades, and if he/she was also achieving the minimum attendance requirement, the student would be considered to have been making satisfactory academic progress at the time of their last evaluation. The clock hours for the course are counted as both attempted and achieved. Students who withdraw from a course and were failing would have it impact their GPA. The clock hours for the course are counted as both attempted and achieved.

Withdrawals – Reentry
If a student withdraws and later re-enters school, he/she will re-enter in the same progress status as at the time of withdrawal.

Transfer Students
Transfer hours from another school that are accepted toward a student’s program are counted as both attempted and completed hours for the purpose of determining when the allowable maximum time-frame has been exhausted. Satisfactory Academic Progress evaluations are based on actual contracted hours at The Institute of Beauty and Wellness or Aveda Institute Madison.

Course Incompletes, Repetition, & Remedial Courses
Course incompletes or repetitions have no effect on the satisfactory academic progress policy. This school does not offer remedial courses.

Changes in Course of Study
If a student enrolls in a second course, their satisfactory academic progress is reviewed only for the course that the student is currently enrolled for. Academic grades and attendance records from a prior course will not be included in the current satisfactory academic progress determination. If a student is concurrently enrolled in two courses, their satisfactory academic progress will be reviewed for each course independently.

Leave of Absence
A leave of absence is a temporary interruption in a student’s program of study. It is offered to students when situations are encountered that require an extended amount of time to be missed from school for a medical condition in which a physician requires the student to be out of school. A leave of absence must be a minimum of 30 days. In order to return from a medical leave, we will need a doctor’s written notice of readiness to return back to school and any limitations that might be required. For any other concerns, if a student feels they need to take a leave of absence, the authorization of the leave will be based upon administrative discretion.

To apply for a leave of absence, a student’s request must be submitted in writing on an Institute Leave of Absence form, must be signed, and must be dated. The student must include the reason for the leave of absence. There must be a reasonable expectation that the student will return from the leave of absence. The school may grant a leave of absence to a student who did not provide the request prior to the leave of absence due to unforeseen circumstances. A student granted a Leave of Absence is not considered to have withdrawn, and no refund calculation is required at that time. The Leave of Absence together with any additional leaves of absence must not exceed a total of 180 days (calendar days) in any-12 month period. When calculating the maximum time-frame for a student’s approved LOA, the school must ensure that it accounts for all periods of nonattendance (including weekends and scheduled breaks). Thus, since an approved LOA may not be more than 180 days, a school might have to reduce the length of a student’s LOA if the 180th day is scheduled to fall on a day the school will be closed. The leave of absence extends the student’s contract period and maximum time frame by the same number of days taken in the leave of absence. The student returning from a leave of absence will return to school under the same progress status as when they left. The institution may not assess the student any additional instructional charges as a result of the leave of absence. If a student’s leave of absence extends beyond the maximum time frame (the date of return) for a leave of absence, the student will be considered a withdrawal. The withdrawal date for the purpose of calculating a refund is always the student’s last day of attendance.

Enrollment Dates: All students are expected to be in attendance from the starting date to the ending date as specified in the student contract. The start and completion of class dates are set for perfect attendance. Beyond that, it is the student’s responsibility to begin to make up hours at the midpoint of their program. The student does not have the flexibility to determine which dates they would like to make up hours and will need to follow the schedule set forth by the Team Leader. All missed hours need to be made up to satisfy the state required licensing hours for that program. There may be a lapse of time between the class graduation date and the time in which a student may make up missed hours.
**Cosmetology – 1600 Clock Hours**

Prior to 2016, the Cosmetology program was 1800 clock hours. The program was decreased to 1600 clock hours to be closer aligned with the State of Wisconsin Department of Safety and Professional Services’ requirement of 1550 clock hours.

The additional 50 clock hours for the program will be devoted to guest education. The Institute of Beauty and Wellness and Aveda Institute Madison are committed to bringing in nationally recognized guest educators to enhance the level of education for our students with their demonstrations, hands on workshops, and lectures.

Massage Therapy – 750 Clock Hours

The Massage Therapy program was increased from 600 clock hours to 750 clock hours in 2011 in response to several factors.

First, student feedback expressed the interest for a longer program so that all topics were covered in depth and more practical experience was gained.

Second, the program was increased in order to include information from both the spa and medical aspects of the industry, reflecting a growing trend in the industry for health and wellness alternative options in the health care industry.

Third, the changes were made to prepare students for the anticipated licensure requirements as of 2012. Students that graduate from a massage therapy program in the State of Wisconsin must take their state law exam before graduation.
